12-13	34-36	86-91	24	61
14-15	36-38	91-97	25	64

HOW TO MEASURE

- Chest (your body):** measure all the way round the fullest part of your chest, just under the armpits. Keep the tape level and snug, not tight.
- Length (the shirt):** lay a shirt flat and measure from the high point of the shoulder, where it meets the collar, straight down to the bottom hem.

FIT TIPS

- Allow a tolerance of 1 inch (about 2.5 cm).
- In between sizes? Size up.
- Centimetres are converted from inches and rounded to the nearest whole cm.
